Wisner Controls offers complete repair on the **Taylor Fulscope E/RC** Recorders and Recording Controllers along with the **Micro Scan 500R** controllers. We have years of experience repairing to component level, all of circuit boards and assemblies that make up these instruments. Although these instruments are no longer manufactured, we still provide full support with repairs, technical support, replacement boards and a complete stock of parts. We also stock rebuilt parts for some

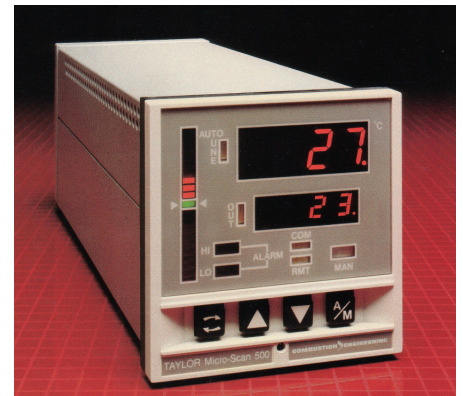

items no longer available new. All of our repairs are backed with a **full one year warranty** and we provide fast evaluations and an exact repair cost to you before repair with **no evaluation fees!**

Listed on the next pages is a parts listing of popular parts and typical repair costs. For a complete parts listing for 1900J/R and the 500R visit us on the web at **www.wisnercontrols.com**. If there is an item you don't see please call us.
